

Push API Details with Header Key for (ShreeyamProperties)

Hi Sir,

As discussed, please find below the details for the Push API integration. Kindly use these credentials and endpoint to send data to our system.

API Endpoint: <https://api.syncr.in/apiLeads>

apiLeads Method:

POST

Headers:

Key: X-APP-KEY

Value: ufoTkuFj5adOiO1Mjhdb-qEL7s-HWMa3

Sample Request Body:

```
{
  "projectName": "Veda",
  "clientNamePrefix": "Mr",
  "clientFirstName": "Vicky",
  "clientLastName": "Test",
  "phoneNumber": "919384276908",
  "alternatePhoneNumber": "string",
  "email": "user@example.com",
  "leadSource": "Website",
  "campaignSource": "string",
  "clientStreet": "string",
  "clientCountry": "string",
  "clientCity": "string",
  "clientZipCode": "string",
  "clientState": "string",
  "leadStage": "string",
  "propertyType": "string",
  "location": "string",
  "area": "string",
  "clientPreference": "string",
  "clientBudgetValue": 0,
  "clientBudgetType": "string",
  "description": "string",
}
```

```
"intrestedProjects": [ "string" ]  
}
```

Expected Response:

```
{  
  "status": "success", "message": "Lead added successfully"  
}
```

clientFirstName, phoneNumber, leadSource are mandatory fields to send in body.

Please ensure requests are sent in **JSON** format with the correct header key for authentication. Let me know once the integration is completed or if you need any assistance during testing.

Note: “If a parameter has no value, pass an empty string ("") instead of text like ‘string’ or any other value”.
